AK701 Body Filler

Product Description

Single-component putty featuring good filling properties, fast-drying and easy to apply. Especially used to cover small scratches, sandholes and pinholes. Suitable for substrates such as dried and sanded existing finishes, putty, 1K and 2K primers.

Pre-treatment

Degrease with AK401.
Dry sand with P100-P120 grade paper or wet sand with P150-P180 grade paper.
Re-clean with AK401

 Mixing Ratio	This product is ready for use.
 Application	Apply with plastic/steel blade. DO NOT blade too thick for one time.
 Drying	Sanding after 10-20mins at 25°C.
Further Treatment	Apply Dobte 2K primer surfacer, basecoats or topcoats.
 Note	1. Mix with Dobte series products to assure spray effect and paint performance. 2. Do Not spray too thick or it will affect adhesion power between layers. 3. Wear protective mask, glove and overall etc.
